

BROADCAST SATELLITE CONNECTIVITY

With Control's DeviceMaster, RocketLinx and RocketPort Products

DeviceMaster RTS

The DeviceMaster RTS product line facilitates communication between serial satellite devices and the Ethernet network. The DeviceMaster allows older, legacy equipment to move forward into the Ethernet network.

Common Satellite Serial Devices

- Antenna Controllers
- Satellite Receivers
- RF Matrix
- Audio/Video Routers
- Video Servers
- Tape Machines
- Satellite Uplink Equipment

DeviceMaster RTS 32-Port

- 32 serial communication ports supporting RS232/RS422/RS485
- Internal AC power supply accepting 90-264VaC
- Temperature operating range: -37° to 74°C
- 19", 1RU rack-mount configuration

RocketLinx ES Series

The RocketLinx line of Ethernet switches can provide satellite integrators with a reliable, user-friendly and environmentally hardened option for network connections. With managed (layer 2+) or unmanaged operations, fiber-optic uplink ports and high bandwidth Gigabit Ethernet communications, (10/100/1000) the RocketLinx switch line can fit easily into a transmission site panel or control center network closet.

RocketLinx ES8108-GigE

- 8-Port unmanaged Gigabit 10/100/1000 Ethernet switch
- Versatile mounting options (cabinet, control panel, DIN-rail)
- Power input 12-48VDC
- -10° to 70°C operating temperature

RocketLinx ES9528

- 24-Port fully managed industrial Ethernet switch
- Four Gigabit 10/100/1000 copper RJ45/SFP fiber-optic uplink ports
- 24-10/100TX copper RJ45 ports
- -25°-70°C operating temperature

RocketPort SMPTE

Broadcast Serial Cards, Cables and Interfaces

Control supports the broadcast market with RS-422 SMPTE (Society of Motion Picture and Television Engineers) serial communications through our PCI Express and PCI/PCI-X multi-port serial cards. The RocketPort SMPTE product line allows for near zero-latency connection with studio devices.

Product Highlights

- Complies with SMPTE 207M Standard
- DB9 Female connectors
- 8 RS-422 ports
- 3 Interfacing options
- PCIe EXPRESS slot and PCI/PCI-X
- 3.3 and 5 Volt PCI bus structures

RocketPort EXPRESS SMPTE Card

Common SMPTE Serial Devices

- Video Tape Recorders
- Tapedecks
- Video Routers
- Lighting Coordinators
- Camera Motion Controllers
- Audio Switchers
- Timecode Generators (used to time commercials/interruptions etc.)

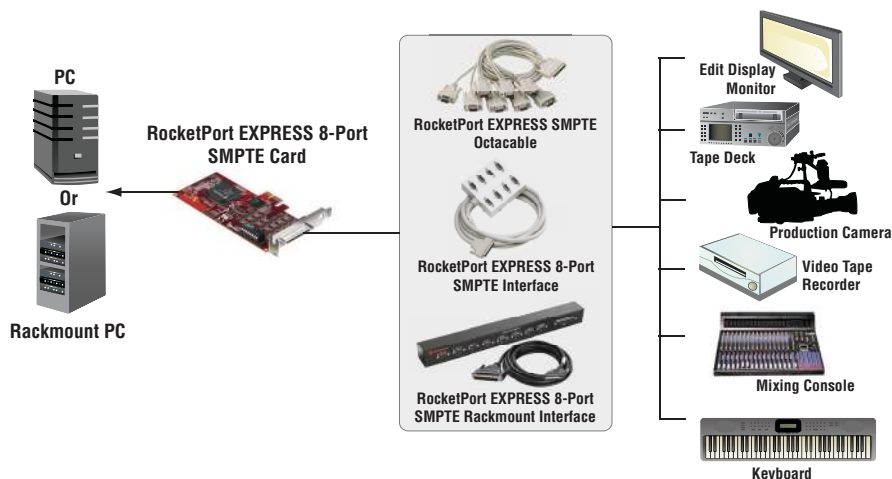

RocketPort EXPRESS 8-Port SMPTE Rackmount Interface

RocketPort EXPRESS 8-Port SMPTE Interface

RocketPort EXPRESS SMPTE Octacable

Warranty Information
Control offers a 30-day satisfaction guarantee and 5-year limited warranty.
